EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sheldon H. Parker on 12/6/2004.

The application has been amended as follows:

Claims 1-3 and claims 51-59 have been canceled.

In **claim 39**, line 3, ~~an actuator~~ has been replaced with a radial dispersion control actuator.

In **claim 45**, line 3, ~~an actuator~~ has been replaced with a radial dispersion control actuator.

2. The following is an examiner's statement of reasons for allowance: The known prior art does not disclose or fairly teach a method comprising: impacting a target with a projectile containing a mass of core particles and a **radial dispersion control actuator**, the actuator and the mass of core particles being released from the projectile during the impact with the target, the radial dispersion control actuator maintaining the mass of core particles as a lethal unitary mass on a substantially straight trajectory behind the actuator for a first predetermined distance after impact with the target; radially

Art Unit: 3641

dispersing the lethal unitary mass of particles over a **second predetermined distance** to produce a mass of non-lethal particles.

3. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James S. Bergin whose telephone number is 703 308-8549. The examiner can normally be reached on Monday - Wednesday and Friday, 8.30 - 5.30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 703 306-4198. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
